SUMMARY

- Skilled Frontend Developer with expertise in crafting web experiences using HTML, CSS, JavaScript, and ReactJS.
- Optimized website performance by 20% by implementing lazy loading, refactoring code, and transitioning from jQuery to more modern and efficient libraries like axios for request handling.
- Proficient in RESTful API integration using Axios and rigorous testing of API endpoints, response times, data validation, and error handling with Jest.
- Experienced in collaborating with cross-functional teams, UI/UX designers, and Product Owners in agile workflows.
- As a Freelance Frontend developer, engineered a Lead management platform for a client leveraging ReactJS and Firebase.
- Dedicated to superior code quality and optimizing web development processes.

SKILLS

ReactJS, NextJs, Tailwind CSS, Redux, Redux Toolkit, JavaScript, HTML, CSS, Typescript, Java, Firebase, Git, Azure Devops, REST API, Teamwork and Collaboration

WORK EXPERIENCE

Capgemini India Pvt. Ltd, Senior Analyst 01/2021 – 06/2023 | Pune, India

- Collaborated with cross-functional teams, including UI/UX designers, to design and implement user-friendly web interfaces using HTML, CSS, JavaScript, and modern frontend library ReactJS.
- Employed Responsive Design principles to ensure optimal viewing experiences across a wide range of devices.
- Optimized website performance by 20% by implementing lazy loading, refactoring code, and transitioning from jQuery to more modern and efficient libraries like axios for request handling.
- Contributed to the development of reusable code components, enhancing the efficiency of future projects.
- Worked closely with backend teams to integrate RESTful APIs, ensuring seamless data flow and functionality.
- Leveraged Selenium for smoke, integration tests, cutting manual tasks by 60%, and speeding up releases.
- Actively participated in code reviews, ensuring adherence to best practices and maintaining code quality.
- Collaborated with Product Owners in agile workflows, refining user stories and enhancing code based on sprint feedback.

PROJECTS

HREF Social, ReactJS, Javascript, Tailwind CSS, Redux, Redux Toolkit, React Hook Form, MongoDB Atlas Realm 🌐

- A web application that allows users to create personalized link pages with their various social media profiles and websites.
- Leveraged Redux middleware for superior async state control in React.
- Efficient form handling with react-hook-form for username, image URL, and social media links input.
- Implemented dynamic URL generation using React Router, allowing users to have a unique profile link.
- Secure profile edits via unique security key validation using react-hash.

Lead-a-lot, ReactJS, CSS, React Toastify, Firebase realtime db 🌐

- Engineered a ReactJS-based lead management system, optimizing lead capture and follow-up processes.
- Leveraged Firebase for real-time data synchronization, enhancing data accuracy and accessibility.
- Implemented dynamic data views with React Router DOM and enhanced UX with React Toastify notifications.
- Boosted daily task efficiency with a "Today's Call" feature, prioritizing immediate follow-ups.

Portfolio site, Nextjs, Tailwind CSS, Typescript 🌐

- Architected a portfolio using Next.js, optimizing server-side rendering for faster load times.
- Utilized TypeScript for type-safe code, reducing runtime errors and improving code maintainability.
- Implemented dynamic content rendering via JSON, streamlining content updates and scalability.

EDUCATION

Bachelor's degree: Information Technology,
G.H Patel College of Engineering & Technology

2016 – 2020 | Anand, India

COURSES

Agile Software Development, Coursera 🌐

04/2021

AWARDS

STAR Award, Capgemini India Pvt. Ltd

06/2022

Innovation Award, Capgemini India Pvt. Ltd

03/2022
